## 6105 Portable Mixer - Hammer Mill

## LIST PRICES

### Ordering Instruction

Order base machine, selections, and options by code number and description

### Standard Features

- 105 Bushel tank capacity
  - 20" Hammer Mill with air system
  - Seventy-two - 4-way reversible hammers
  - Four large inspection windows in tank
  - Heavy duty 540 rpm implement drive line
  - Ingredient supplement hopper
  - Ladder & fenders
  - 10:00 x 15 8 ply tires
  - Double #60 drive to mixer and discharge
  - 8" diameter x 10' long unloading auger
  - Mechanical features spring loaded lift assist
  - Hydraulic features hydraulic lift cylinder
  - Throat magnet - #4 x 18"
  - Tilted high speed flighting
- Est. Set-Up Time:** < 1 Hour

**Scale Indicators- Weigh Tronix and Intercomp (All Grinders)**

**LIST PRICES**

**Ordering Instruction**

- Order field kit by code number and description.
- Order options if applicable by code number and description

**Weigh-Tronix Model 640 & 640XL**

The Model 640/640XL indicators are simple Gross/Tar/Net weight indicators which include 1.1 digits on the 640, or optional 2" on the 640XL. Included standard is an RD40/XL port. Display is LCD, 14-segment, with bright yellow green adjustable backlighting for easy viewing regardless of lighting conditions. Operates from 12VDC source and has selectable weight filtering, 100 accumulator memory channels, with individual statistics (count, total, and average weight accumulated) with alpha-numeric identification of those channels.

**Weigh-Tronix Model 2060**

A robust, programmable indicator, featuring an industry leading 6" (15 cm) backlit graphic display, alphanumeric keypad, five programmable soft keys and a range connectivity options for ease of use. Supplied with Standard Scale software which features Gross, Tare, or Net weighing modes, Target Load or Unload, Auto-Loc Channels, Auto-Accumulation, 200 user defined memory channels, USB File transfer, and Customization Output that allows users to interface with allows users to interface with optional light and audible alarm.

**Intercomp Model LD720**

Intercomp's LD720™ LED Load/Unload RFX® Wireless Indicator is built to withstand extreme temperatures and features a 1.5" LED display to provide clear visibility under all lighting conditions. The intuitive Load/Unload function allows users to view the countdown to the target weight as the grinder mixer is loaded or unloaded, improving efficiency and accuracy for mixing and feeding.

**Intercomp HH520RFX Wireless Handheld**

Intercomp's HH520™ RFX™ Wireless Handheld controls core scale functions, including Load/Unload, within 300 feet of the LD720™ Wireless Indicator, allowing users to view target weight progress from where its most convenient for them. The large, backlit graphic display clearly shows current weight and a bar graph to note progress towards target weight.
